

# KNOW YOUR VOTING RIGHTS

I do not have to prove my IQ or my ability to read and write to vote. Only a court can take away this right.

I may vote even if I have a conservator, unless a court has explicitly said I cannot.

If I need help to vote, I do not have to explain why.

I can have someone I choose or a poll worker help me vote if I ask.

I may ask for an accessible voting machine if I need one. Every polling place is required by law to have one.

If you experience a problem while voting call Disability Rights at:
