All other attendees will receive a general certificate of attendance.
Fee-Based Training

**Brain Injury Association of America**
65+ recorded and ongoing registration for live webinars for caregivers, professionals on a variety of subjects. Receive a certificate for ACBIS (Academy of Certified Brain Injury Specialist) recorded webinars – cost ranges $30-$50 per one hour webinar.

**Academy of Brain Injury Specialists**
Developed by experienced clinicians and rehabilitation professionals, Brain Injury Fundamentals is an all-new training and certificate program designed to address the unique needs and challenges of those who care for or encounter individuals with brain injury. This includes non-licensed direct care staff persons, facility staff, family members and friends, first responders, and others in the community.

**Neuropsychological Screening: Using Brain Injury and Cognitive Screening to Inform Treatment Planning Across Settings.**
Become a NASHIA-Approved (National Association of State Head Injury Administrators) Neuropsychological Screener. Open to Masters-level clinicians, Social Workers, Vocational Rehabilitation Counselors, Addiction professionals, Community Rehabilitation programs, School staff, Evaluators, Mental health. $150 for all three modules and certificate. $150 for supervisors module and certificate. $200/hr consultation hours for anyone.

**OSU TBI-ID Method Training (Screening for TBI)**
The Ohio State University (OSU) Traumatic Brain Injury (TBI) Identification Method (OSU TBI-ID) is a standardized procedure for eliciting a person’s lifetime history of TBI via a 3-5 minute structured interview. While not ideal for determining lifetime exposure to potentially damaging brain injury, self-report remains the gold standard for research and clinical use. The OSU TBI-ID has proven useful in many settings, including medical, mental health, substance abuse, domestic violence, corrections and aging. Health care and social service professionals need this tool to elicit a person’s history of TBI.

**Brainline’s Glossary of Terms**
This glossary provides information and definitions of medical terms associated with brain injury and rehabilitation to help you or your family.
Thank You!

We’re here to help
Our mission is to bring together professionals to recognize the far-reaching and unique nature of brain injury and to improve services for survivors. If we can help you, please feel free to reach out!
