

Soar back to 1990 when **Teenage Mutant Ninja Turtles** was the hot movie, the **Hubble Telescope** was introduced, the **49er's** won the Super Bowl, the **Red's** won the World Series, sidewalks had **no curb cuts**, buses had **no ramps**, service animals **were not allowed** in many public facilities, and employment **was a mere dream** for many people with disabilities.

Now glide your way forward to today where **accessible greenways** exist, **classmates** and **coworkers** have disabilities, **autonomous cars** are a reality, and **DISABILITY** is no longer a dirty word.

Come join the disABILITY Resource Center as we look back these past 35 years and celebrate the significant impact the ADA has made on our local and surrounding communities.
